

Natural Gas: Energy to build on

Energy conservation rebates

Peoples Gas offers homebuilders rebates for installing energy-efficient natural gas appliances. The rebates are per home and can add up when looking at the value of natural gas across an entire community. The program is designed to help offset costs associated with purchasing and installing gas appliances.

Control and track your rebate revenue

Peoples Gas makes it easy to submit and track energy conservation rebates for your newly built natural gas homes. Through a special online portal, you can:

- Enter information for the home
- Select applicable rebates
- Process the rebates due for each home
- Review and track the status of rebates
- Identify errors or missing information to avoid delays

Earn up to \$2,125 in energy conservation rebates per home*

Natural Gas Appliance	Rebate
Tankless Water Heating	\$700
Tank Water Heating	\$550
Energy Star Tank Water Heater	\$650
Cooking	\$300
Clothes Dryer Stub	\$100
Clothes Dryer + Dryer Stub	\$400
Gas Furnace	\$725

**Please see PeoplesGas.com/Builders for full terms and conditions.*

Build in the amenities homebuyers love

- **Endless hot water** without the tank and up to 40% more efficiency
- **Professional-grade cooking** in the kitchen or at the outdoor grill
- More lifestyle upgrades like **outdoor fire** features and **pool/spa heating**
- **Critical reliability** especially throughout Florida’s storm season, plus the ability to install **backup power** generation
